3 - What are some specific things your instructor does that help you learn in this course?

Jennifer Parker

Response Rate 7/21 (33.33%)

- Clear expectations were very helpful as well as the resources used to complete the coursework. Dr. Parker was also available for help or clarification, and her feedback on the assignments was thorough and constructive.
- Jen gave quality feedback on all work. Her comments left room for growth and reflection of my work. She also had great communication and helped in any way she could.
- The instructor did help my learning when she met with me via zoom.
- She met with us and was always available for questions or concerns. She responded promptly and helped had an abundance of suggestions and resources.
- n/a
- I was challenged and pushed to work hard and reach higher than I thought I could.
- Individual meets with partners to talk through questions and concerns while building our capstones.

Response Rate: 13/21 (61.90 %)

4 - What are some specific things your instructor does that hinder or interfere with your learning?

Jennifer Parker

Response Rate 8/21 (38.1%)

- Occasionally there was some unclear communication regarding due dates and expectations, but otherwise everything went well.
- Class shell was hard to navigate.
- I felt like communication was used between 3 different modes - email, blackboard, and Microsoft Teams. It was confusing at times but we were trying something new. There was just a lot of information everywhere. I think it would be helpful to condense the writing on blackboard.
- I emailed both instructors multiple times throughout the semester. Dr. Hick's replied and met with me 90% of the time. I would have been beneficial if Dr. Parker would have been an active participant in the conversations earlier on in the course.
- N/A
- Poor communication between who our actual professor was and who completed grades. Feedback was just copied and pasted from student to student (not meaningful or personal).
- The modules were not always clear as to what we should be doing or learning. I was not sure how far I should have made progress in my capstone; there was too much time for brainstorming, with not enough checkpoints for my capstone to encourage me to make more progress sooner.
- Dr. Parker was amazing! There honestly wasn't anything that she did that hindered my learning.

5 - Please give your instructor some practical suggestions on ways to improve your learning in this course.

Jennifer Parker

Response Rate 5/21 (23.81%)

- Thank you for the well organized course materials, clear expectations, and helpful feedback!
- One suggestion would be to improve the way assignments are displayed on blackboard. Between the modules and assignments tabs, there were times I was reading two different expectations for assignments and it would become confusing and frustrating. I think the intent was to provide multiple areas where information can be found, but keeping it simple and in one spot is easier in an online course.
- If Dr. Parker would have interacted with me earlier in the semester it would have helped with my overall learning.
- n/a
- More zoom live classes would have helped, even if they were shorter in time frame but just broken up and as a chance to check in with the teachers. I also would have liked to have 2 meetings with you, or it would have helped me to have more of a deadline for what to have accomplished for my accountability partner meetings.
