### 3 - What are some specific things your instructor does that help you learn in this course?

Jennifer Parker

**Response Rate** 1/8 (12.5%)

- Feedback left on assignments was very specific but still respectful. I felt capable of taking feedback from one assignment into the next to make sure I was creating and submitting a quality product.

### 4 - What are some specific things your instructor does that hinder or interfere with your learning?

Jennifer Parker

**Response Rate** 1/8 (12.5%)

- The use of accountability partners. I might feel differently if I was more comfortable/familiar with the people in my cohort, but I did feel a little stressed out needing to partially rely on another person for my grade. Although, it was not so bad since partners were assigned rather than needing to be picked. It did make this process easier since I knew exactly who I needed to contact.

### 5 - Please give your instructor some practical suggestions on ways to improve your learning in this course.

Jennifer Parker

**Response Rate** 1/8 (12.5%)

- Perhaps a live session during the course where partners could be assigned to breakout rooms for project updates? I know it would not necessarily work for everyone, but maybe having a designated time for partners to meet could be beneficial, and other arrangements could be made for people unable to attend.
